➤ What is this product?

Type: This product is a SICAV.

Term: No fixed term.

Objectives: The investment objective of the Sub-Fund is to achieve capital growth in the long term by investing mainly in equities and equity related instruments and to generate a total return in excess of the reference benchmark being MSCI ACWI ESG Leaders Net Return EUR (the "ESG Index"). The Sub-Fund is actively managed in reference to this ESG Index with significant degree of freedom.

The Sub-Fund invests mainly in equities or equity related instruments, listed mainly on developed markets and emerging markets. The Sub-Fund invests mainly in the following geographical areas: European countries, North America, Asia Pacific and emerging countries. The Sub-Fund may be exposed to Chinese instruments either indirectly via derivatives, units of UCITS and/or other eligible UCIs, American depositary receipts (ADR) and global depositary receipts (GDR) or via investments in H-shares on the Hong Kong Stock Exchange.

The Sub-Fund invests mainly in large and medium market capitalization companies.

Currency risk will be actively managed with a maximum exposure of up to 100%.

Moreover, the Investment Manager will also exclude from the Sub-Fund's portfolio certain equity and equity-related instruments that do not respect the fundamental values of the Catholic Church as per the Christian Investment Guidelines not already comprised in the promotion of the environment and/or social characteristics including, but not limited to the exclusion of companies that derive any revenues from abortion and birth control, adult entertainment, and research on stem cells, etc. For the purposes of building up the Sub-Fund's portfolio or of mitigating volatility risk (where deemed in the best interests of the Sub-Fund's investors), the Sub-Fund may also invest up to 30% of the Net Asset Value in corporate and government bonds or in other interest-bearing securities.

The Sub-Fund may invest in derivatives, both exchange traded and OTC on, for instance, stock indexes and/or single stock and/or equity related indexes (options on volatility, dividends, etc), in liquidity, currencies and in time deposits. In addition, the Sub-Fund may invest up to 10% of its Net Asset Value in units of UCITS and/or other eligible UCIs with analogous investment policies. In principle, the Sub-Fund may hold on a temporarily basis ancillary liquid assets up to 20% of the Sub-Fund's Net Asset Value.

Intended retail investor: The Sub-Fund is suitable for investors who have ESG preferences, with an additional focus on investments guided by the fundamental values of the Catholic Church based on the main principles defined by the Italian Episcopal Conference, being the official assembly of the Catholic Church's bishops in Italy and who are seeking capital appreciation over 7 years and are prepared to accept the risk of significant temporary losses and to afford to set aside the capital in the long timeframe. The Sub-Fund is suitable for both more experienced investors wishing to attain defined investment objectives, with experience with volatile products and less experienced investors including those who are interested in or informed about capital market topics but see the investment fund as a convenient investment product. The Sub-Fund is designed for the investment objective of building up capital.

Depository: The Fund's assets are held through its Depository, which is BNP Paribas S.A., Luxembourg Branch.

Distribution type: The product is accumulating.

➤ What are the risks and what could I get in return?

Risk indicator

Lower risk

Higher risk

The risk indicator assumes you keep the product for 7 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 12 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

Example investment: EUR 10,000		1 year	7 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress scenario	What you might get back after costs	EUR 5,070	EUR 2,530
	Average return each year	-49.27%	-17.81%
Unfavourable scenario ¹	What you might get back after costs	EUR 8,400	EUR 12,350
	Average return each year	-15.98%	3.06%
Moderate scenario ²	What you might get back after costs	EUR 10,920	EUR 17,910
	Average return each year	9.21%	8.68%
Favourable scenario ³	What you might get back after costs	EUR 14,060	EUR 20,390
	Average return each year	40.60%	10.72%

¹This type of scenario occurred for an investment from 12/2021 to 12/2024.

²This type of scenario occurred for an investment from 04/2017 to 04/2024.

³This type of scenario occurred for an investment from 12/2012 to 12/2019.

➤ What happens if Carne Global Fund Managers (Luxembourg) S.A. is unable to pay out?

The assets and liabilities of the Sub-fund are segregated from those of the other sub-funds and from those of the manufacturer or the custodian. If the SICAV is not able to pay you out what is due, you may lose your entire investment. No investor guarantee nor compensation scheme is foreseen in that eventuality.

➤ What are the costs?

Costs over time

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return)
- For the other holding periods we have assumed the product performs as shown in the moderate scenario
- EUR 10,000 is invested

Example Investment: EUR 10,000	If you cash in after 1 year	If you cash in after 7 years
Total costs	EUR 150	EUR 1,803
Annual cost impact(*)	1.50%	1.50%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 10.18% before costs and 8.68% after costs.

Composition of costs

The table below shows the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period and the meaning of the different cost categories.

The table shows the impact on return per year		If you exit after 1 year	
One-off costs upon entry or exit	Entry costs	We do not charge an entry fee.	EUR 0
	Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	EUR 0
Ongoing costs taken each year	Management fees and other administrative or operating costs	1.20% of the value of your investment per year. This is an estimate based on actual costs over the last year.	EUR 120
	Transaction costs	0.30% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	EUR 30
Incidental costs taken under specific conditions	Performance fees and carried interest	There is no performance fee for this product.	EUR 0

➤ How long should I hold it and can I take my money out early?

The recommended minimum holding period: 7 years.

The Fund is designed to be held over the long term and we recommend that you hold this investment for at least 7 years. You can request to take out some or all of your money at any time. You can typically request to buy or sell shares in the sub-fund on any business day (as set out in the Fund's prospectus). Investors may demand to redeem their units every normal bank business day in Luxembourg.

➤ How can I complain?

If you have any complaints about the product, the conduct of the manufacturer or the person advising on the product, complaints can be lodged via the following methods:

E-mail: complaints@carnegroup.com.

Mail: Carne Global Fund Managers (Luxembourg) S.A. 3, Rue Jean Piret, L-2350 Luxembourg.
