SIDERA FUNDS - EQUITY GLOBAL LEADERS, a sub-fund of Sidera Funds SICAV, class B Acc (ISIN: LU1325864467)

The sub-fund is managed by Carne Global Fund Managers (Luxembourg) S.A. (the "Management Company")

Objectives and Investment Policy

The investment objective of the sub-fund is to achieve capital growth in the long term by investing primarily in equity and equity related instruments, in addition, in money market instruments, cash, currencies, time deposits and other interest bearing securities and to target a gross return of 5% p.a. above the ICE BofA Euro Treasury Bill Index. The Sub-Fund is actively managed. The Sub-fund refers to the ICE BofA Euro Treasury Bill Index for the purpose of performance comparison only. The sub-fund does not aim to replicate this index and the investment selection process is not influenced, nor constrained in anyway by this Index.

The sub-fund invests mainly in equities or equity related instruments, listed on OECD markets and/or issued by companies domiciled in OECD countries. The sub-fund may also invest in derivatives, both exchange traded and OTC derivatives on, for instance, stock indexes and/ or single stock and/or equity related indexes (options on volatility, dividends, etc.), in corporate and government bonds, in other interest bearing securities, in units of UCITS and/or other eligible UCIs, cash, currencies and in time deposits. The sub-fund may also invest up to 30% of the Net

Asset Value in emerging market instruments. Securities will be mainly denominated in G 10 currencies. The sub-fund is suitable for investors who are prepared to accept the risk of significant temporary losses and to afford to set aside the capital in the long timeframe. The sub-fund is suitable for both more experienced investors wishing to attain defined investment objectives, with experience with volatile products and less experienced investors including those who are interested in or informed about capital market topics but see investment fund as a convenient investment product. The sub-fund is designed for the investment objective of building up capital.

Investors may demand to redeem their units every normal bank business day in Luxembourg.

The dividend in respect of an accumulation share class is not distributed but is retained in the sub-fund.

Recommendation: This sub-fund may not be appropriate for investors who plan to withdraw their money within 8 years of investment.

Risk and Reward Profile

More about this rating

- The risk category is based on return volatility over the last five years. The method used for this estimation depends on the type of fund.
- Historical data may not be a reliable indication for the future.
- The risk category shown is not guaranteed and may vary over time.

Why is this sub-fund in category 6?

The sub-fund is exposed mainly in equities listed on OECD markets and/or issued by companies domiciled in OECD countries. The risk category is therefore driven by equity market fluctuations.

Further material risks:

- The use of derivatives to generate leverage could impact the sub-fund returns.
- A slight portion of the sub-fund may be invested in less liquid instruments whose prices could fluctuate in certain market conditions.
- No Capital Guarantee exists for this product so investors can lose the whole of their investment.
- Significant use of over-the-counter instruments exposes the sub-fund to potential counterparty default risk.
